Civilians Departed From City Month Ago-Austrians Quit Czernowitz

Berlin, via London, Oct. 21.-The Germans have driven the Russians from the banks of the Dyina river between Dorkowitz and Bersinende south east of Riga.

Riga, where the Germans have made some progress in the new thrust at the Baltic province port, and in Volbynia and Galicia, where the Russians have gained rather important victories, are now competing in inerest in London with the operations n the Balkans. The Germans have concentrated very large forces, with great amount of artillery, south of Riga, and as a result, a stubborn batburg who is in command in this region, reported two days ago that his forces had reached the river Dvina. but as on previous ocassions, thi broad and fast running waterway appears to have him held up for the time being. The situation, however, is considered by the Russians to be more serious than it has been for a he evacuation of Riga by the military, who have been in sole occupa-

Ivanoff, who has proved himringe of Galicia that is still in Rusdriven his opponents back and there was a report last night that the Austrians have evacuated Czernowitza report that finds some confirmation in an Odessa dispatch declaring the Russians have abandoned their contemplated evacuation of the north ern districts of Bessarabia.

of Plundering Cottages. Deputy Sheriff J. D. Purdy of Man hester was in Bennington yesterday afternoon on business connected with the apprehension of three men nesday morning who confessed later to plundering summer cottages in Bennington and Rutland counties.

The men captured were Frank Lambert, George Towne and Volney Squires who have been living at the Danby town farm. Albany, Oct. 21-State militiamen are being held in readiness for strike duty in Schenectady, where 13,000 employees of the General Electric company have been out for more eight-hour day and twenty per cent increase in wages. It is reported that the adjutant general unofficially suggested that certain companies be prepared to move, if needed. The report has caused intense bitterness in Schenectady,

Mayor Schoolcraft was assured by subcommittee from the Metal Trades alliance that the committee diregting the striking men would do everything possible to maintain or der at the gates of the General Electric company. The committeemen themselves pledged their word to the mayor that they would be present in person at the gutes this morning to direct the picketing in an orderly and lawful manner. This report followed a meeting of the Metal Trades at liance directly after a conference

with city officials. The conference between the city officials and members of the Metal Trades alliance took place at noon in the office of the mayor. Mayor School craft told the committeemen that a demand had been made upon him earlier in the day, by officials of the company, for protection. He pleaded with the men to use their influence with the strikers so that there would be no need or excuse for calling upon the state militia.

"My God, men! We don't want soldiers here," said the mayor. Labor leaders praised the mayo

Napolean Larin, Formerly of Benning ton, Wounded in France

Mrs. Margaret Larin, who lives on Park street, has received a letter from her son Napolean stating that he has so far recovered from his wound while fighting with the British army in France that he expects to be in Bennington with his people on

The Larin family were originally Canadians and several of the sons have been members of the Canadian militia. Napolean enlisted at Hamilt-

on, P. Q., a little over a year ago with the Dufferin Rifles. Upon the arrival of the Canadians in England the or iginal militia organizations were broken up in the formation of battalions and lost their identities.

The letters received by Mrs. Larin all show evidence of having been through the hands of the censor and the writer states that the soldiers are given explicit instructions as what they may and may not write. They are not allowed to give any information about where they are stationed or to the dates of any happenings.

In addition to the letters Mrs. Lar in has just received a photograph of a group of convalescing soldiers. Her son Napolean is one of the group. While fighting in the trenches he was hit on the right side of the face by a piece of shrapnel and his lower jaw was torn away. A silver law has been put in place by the surgeons and the son writes that his condition

Larin was wounded in one of the trenches. The defense of the allies and the Germans had been pushed so close to each other that the two armies had been firing back and forth at each other every time Hans or Tommy showed any part of his anatomy at the top of the trench wall. Larin was endeavoring to obtain a shot at a German sniper who had been proving himself a good marksman when a shrappel shell exploded

of the flying fragments hit his face. The picture received by Mrs. Larin was evidently taken in one of the many private homes in England that have been converted into hospitals. There are ten soldiers and two nurses in the group. Larin and one other soldier are the only ones who appear to have suffered any serious in-
